

**Pirates Eat Porridge by Christopher Morgan and illustrated by Neil Curtis**

This is an amusing tale of two children who meet a pirate in their house. The story contains many humorous aspects that enhances the story, which children will love. The play on words the author uses are hilarious. The book has black and white illustrations but these are beautifully created to extenuate the text. The characters are enjoyable, likeable and nicely introduced. The children in the book are characters most children can relate to. I would definitely recommend this text as a fun book to read.

It is a great book to read aloud to a child, or a class. It can be used in a classroom setting to emphasise expressive reading and descriptive writing

A great text to use if studying sea, floating, sinking or pirates!
