

# The Cryptic Casebook of **Coco Carlomagno**

Coco and Alberta need your help!

Coco and Alberta are at the fruit shop. They have **30 pesos** to spend.

Here is their shopping list:

- SHOPPING LIST
1.  $2\frac{1}{2}$  pineapples
  2. 4 bananas
  3. 22 cucumbers
  4.  $\frac{1}{3}$  of a watermelon
  5. 3 lettuces
  6. Six radishes

Can you work out if there will be enough money left over for a cone of white chocolate ice cream afterwards?
